INDEX TO VOLUME XXIX

Agalliopsis, New Leafhoppers of the Genus, 649.
  Agalliopsis saxosa, 649.
  vellana, 649.
Agalliopsis, Food Plants of the United States Forms of the Leafhoppers of the Genus, 650.
Agromyzidae, New Central American, 298.
  Agromyza approximata, 316.
  barrocolorodensis, 300.
  buskei, 315.
  cassiae, 306.
  centrosemae, 301.
  crotonis, 313.
  currani, 306.
  curvibrissata, 309.
  dorsocentralis, 307.
  iridescens, 303.
  kallima, 299.
  oralis, 309.
  orbitalis, 314.
  punctohalterata, 311.
  schmidti, 302.
  tibialis, 312.
Amphicercidus maxsoni, 273.
Anasa Tristis De G., Histological Studies of the Digestive System of the Squash Bug, 561.
Aneflus basicornis, 471.
Aneflomorpha arizonica, 475.
  californica, 476.
  duncani, 472.
  elongata, 473.
  fisheri, 475.
  texana, 473.
Anelaphus, 464.
Anopheles Albimanus Wiedemann, The Life Cycle of Laboratory-Bred, 480.
Anopheles (Kerteszia) Boliviensis Theobald, The Male and Larva of, 415.
Anommutilla, 295.
  Anommutilla difficillis, 295.
Anopliomorpha, 465.
Ants of the Genus Ponera in America, North of Mexico, 420.
Aphelinidae as Parasites, A Biological Phenomenon Affecting the Establishment of, 251.
Aphids from Colorado, Four New, 273.
Aradidae with Descriptions of New Species, Studies in the American, 490.
  Aradus furnissi, 500.
  fuscipennis, 504.
  intermedius, 498.
  linsleyi, 493.
  mexicanus, 503.
  serratus, 496.
Aspidaphis adjuvans rowei K. and S., 776.
Atrophy of Flying Wings of Some Carabid Beetles, Variation and, 136.
Auten, Mary, and Johnson, Dorothy M., article by, 61.
Avinoff, A., article by, 557.

Ball, E. D., articles by, 649, 650.
Bean Weevil, Bruchus Obtectus Say, The Influence of Constant Temperature and Humidities on the Rate of Growth and Relative Size of the, 279.
Bess, Henry A., article by, 593.
Biological Control, Insect Parasitism and, 201.
Biological Phenomenon Affecting the Establishment of Aphelinidae as Parasites, A, 251.
Biographical Sketches of Officers of the Entomological Society of Washington, 460.
Blatta Orientalis Linn., The Effect of a Few Toxic Substances upon the Total Blood Cell Count in the Cockroach, 335.
Book Notices, 60, 65, 80, 196, 197, 198, 199, 250, 255, 297, 318, 349, 393, 394, 395, 430, 448, 489, 551–554, 580, 588, 592, 616, 635, 644, 769, 816, 817.
Bowen, M. F., article by, 119.
Brachyrhinus Ligustici L., The Early Embryological Development of the Parthenogenetic Alfalfa Snout Beetle, 1.
Breakey, E. P., article by, 561.
Bugbee, Robert, article by, 614.
Bulia Walker, A Revision of the Noctuid Genus, 431.
  Bulia similaris, 433.
Butt, F. H., Article by, 1.

Caldwell, J. S., (with DeLong), article by, 70.
Carabid Beetles, Variation and Atrophy of Flying Wings of Some, 136.
Cavariella hendersoni K. and S., 776.
Centruchus brevicornis, 247.
Ceratomegilla Fuscilabris, Alimentary Canal and Malpighian Tubules of, 15.
Chamberlin, Ralph V., and Ivie, article by, 85.
Cinara pseudoschwarzii, 274.
Claassen, P. W., article by, 622.
Clausen, C. P., article by, 201.
Coagulation in the Blood of Insects by the Fatty Acid Vapor Treatment, Inhibition of, 341.
Cockroach, Blatta Orientalis Linn., The Effect of a Few Toxic Substances upon the Total Blood Cell Count in the, 335.

Coleophora Pruniella Cl., and Parasites Recorded from Other Species of Coleophora, Hymenopterous Parasites of, 224.
Confused Flour Beetle, Prothetely in the Larva of the, 268.
Cryptaspidia fasciata, 248.
Culex Rooti Rozeboom, The Larva and Adult of, 266.
Culex, Seven from Panama and Two from Venezuela, Description of Nine New Species of, 319.
Culex browni, 326.
elephas, 328.
flabellifer, 323.
lamacifer, 325.
lucifugus, 331.
paracrybda, 330.
quadrifoliatus, 322.
vexillifer, 320.
Culex amitis, 333.

Darlington, P. J., Jr., article by, 136.
Dasymutilla, New Species and Records of Nearctic Mutillid Wasps of the Genus, 29.
Dasymutilla asteria, 57.
beameri, 48.
dawsoni, 40.
hispidaria, 55.
klugicides, 54.
nigridia, 47.
parksi, 50.
unicolor, 59.
DeLong, Dwight M., article by, 636.
DeLong, D. M., and Caldwell, J. S., article by, 70.
Description of Some Rabbit Brush and Willow Aphids, 776.
Digestive System of the Squash Bug, Anasa Tristis De G., Histological Studies of, 561.
Doner, Melvin H., article by, 224.
Drosophila and Mosaic Formation, Cleavage Patterns in, 350.
Drosophila, A Short-Tailed Larva of the Genus, 617.
Dutch Elm Disease, Three Possible Mite Vectors of the, 627.

Elaphidionopsis, 467.
Elaphidionopsis fasciatipennis, 467.
Elkins, Winston A., article by, 656.
Elymana in North America, The Genus, 636.
Elymana acrita, 637.
acuma, 637.
caduca, 638.
ritana, 638.
Embryological Development of Melophagus Ovinus L., With Special Reference to the Development of the Germ Cells, The Early, 397.
Embryological Development of the Parthenogenetic Alfalfa Snout Beetle, Brachyrhinus Ligustici L., The Early, 1.
Epigomphus Crepidus, A New Dragonfly from Nayarit, Mexico, with Notes on the Genus, 126.
Epigomphus erepidus, 126.
Erythroneura of the Obliqua Group from Decatur, Georgia, Some, 61.
Erthroneura cavena, 61.
contrasta, 62.
decorata, 63.
extrema, 64.
nitida, 65.
scytha, 61
stulta, 64.
European Pine Shoot Moth, Rhyacionia Bouliana Schiff., in Connecticut, Winter Mortality of the Larvae of the, 438.
Everes Comyntas Godt., The Dimorphic Blue Female of, 620.
Evolutionary Trends in the Stratiotomyidae, Some, 624.

Felt, E. P., article by, 694.
Fisher, Robert A., article by, 335.
Flanders, S. E., article by, 251.
Food Plants of the United States Forms of the Leafhoppers of the Genus Agalliopsis, 650.
Forbes, Wm. T. M., article by, 779.
Forcipata—And Nine New Species of Typhlocybine Leafhoppers Closely Allied to Dikraneura, A New Genus, 70.
Forcipata, 70.
acclina, 74.
ancantha, 73.
calipera, 74.
loca, 71.
magna, 71.
ortha, 75.
ohioensis, 73.
sicula, 72.
triquetra, 72.
Four New Aphids from Colorado, 273.
Frison, T. H., article by, 256.
Frost, S. W., article by, 298.
Funkhouser, W. D., article by, 245.

Gall Production, The Relations of Insects and Plants in, 694.
Gargara maculata, 249.
German Institute of Entomology, The, 460.
Gregarines to Growth and Longevity in the Mealworm, Tenebrio Molitor L., Relation of, 645.

Hatch, Melville H., article by, 701.
Haydak, Mykola H., article by, 581.
Heiss, Elizabeth M., article by, 617.

Hemolymph (Blood) Cell Counts of Insects, On the Total. Part II. Neuroptera, Coleoptera, Lepidoptera and Hymenoptera, 112.
Histiogaster fungivorax, 630.
Hydroperla parallela, 261.
Hymenoptera, The Ancestry and Wing Venation of the, 99.
Hymenopterous Parasites of Coleophora Pruniella Cl., and Parasites Recorded from Other Species of Coleophora, 224.
Incense Cedar in California, Two Spinning Mites Attacking the, 770.
Indian Membracidae, Five New, 245.
Insect Parasitism and Biological Control, 201.
Ivie, Wilton (with Chamberlin), article by, 85.

James, Maurice T., articles by, 517, 624.
Johnson, Dorothy M. (with Auten), article by, 61.

Kakimia collomiae, 276.
Kennedy, Clarence Hamilton, articles by, 126, 804.
Knight, Harry H., article by, 578.
Knowlton, G. W., (with C. F. Smith), article by, 776.
Komp, W. H. W., article by, 319.
Komp, W. H. W., and Osorno, M. Ernesto, article by, 415.

Landis, Birely J., article by, 15.
Lassmann, G. W. P., article by, 397.
Leptocentrus luteinervis, 245.
Leschenaultia Exul Townsend, A Tachinid Parasite of Malacosoma Americana Fabricius and Malacosoma Disstria Hubner, The Biology of, 593.
Linsley, E. Gorton, article by, 461.
List of Members, Entomological Society of America, (March, 1936), v.
Lomachaeta, 289.
  Lomachaeta hicksi, 289.
  coloradensis. 292.
  punctinota, 293.
  minutula, 294.

Macrosiphum breviscriptum, 277.
Malpighian Tubules of Ceratomegilla Fuscilabris, 15.
Martin, C. H., (with Wilcox), article by, 449.
Mauryba bicolor, 246.
McGregor, E. A., article by, 770.
Megninietta, 631.
  .Megninietta Ulmi, 632.
Melophagus Ovinus L., with Special Reference to the Development of the Germ Cells, The Early Embryological Development of, 397.
Meiners, Edwin P., M. D., article by, 620.
Membracidae, New, from Mexico, with Notes on Other Species, 682.
Menusan, H., Jr., article by, 279.
Metasternal Glands of the Ant, Myrmica Rubra, with Special Reference to the Golgi Bodies and the Intracellular Canaliculi, The, 81.
Mezira pacifica, 506.
  carinata. 509.
  nigripennis, 511.
  vanduzeei, 507.
Mickel, Clarence E., articles by, 29, 289.
Miller, Frank E., Jr., article by, 66.
Mite Vectors of the Dutch Elm Disease, Three Possible, 627.
Monieziella arborea, 628.
Mosaic Formation, Cleavage Patterns in Drosophila and, 350.
Mutillid Wasps of the Genus Dasymutilla, New Species and Records of Nearctic, 29.
Mutillidae, Two New Genera and Five New Species of, 289.
Myrmica Rubra, with Special Reference to the Golgi Bodies and the Intracellular Canaliculi, The Metasternal Glands of the Ant, 81.

Nannocyrtopogon, The Genus, 449.
  Nannocyrtopogon, 449.
  Nannocyrtopogon atripes, 456.
  Lestomyiformis, 454.
  Lestomyiformis minutus, 455.
  monrovia, 453.
  oculatus, 452.
  vanduzeei, 451.
Nemoura dimicki, 256.
  lobata, 260.
  obscura, 258.
  perplexa, 259.
Noctuid Genus Bulia Walker, A Revision of the, 431.

Obliqua Group from Decatur, Georgia, Some Erythroneura of the, 61.
Odontomyia in America North of Mexico, The Genus, 517.
  Odontomyia bellula, 528.
  borealis, 537.
  confusa, 543.
  colei, 532.
  discolorata, 548.
  hirtocculata, 540.
  occidentalis, 545.
  painteri, 530.

One-Eyed Bee, A Histological Study of the Eye and Brain of A, 66.
Osborn, Herbert, article by, 460.
Osorno M., Ernesto, (with Komp), article by, 415.

Oothuizen, M. J., and Shepard, H. H., article by, 268.
Oriental Fruit Moth, Utilizing Parasites in Controlling the, 640.

Palmer, M. A., article by, 273.
Paloncia deserta, 686.
Paratetranychus alpinus, 770.
Parasites in Controlling the Oriental Fruit Moth, Utilizing, 640.
Parks, Hal B., article by, 350.
Perlomyia sobrina, 262.
Perlomyia solitaria, 261.
Philya Lowreyi, 682.
Phoracanthini and Sphaerionini, Preliminary Studies in the North American, 461.
Phytomyza centralis. 317.
Pictinus dominicus, 512.
Platycotis cornuta, 682.
Plummer, C. C., article by, 682.
Polistes Fuscatus, Unusual Nesting Colony of, 614.
Polyglyptodes viridus, 688.
Ponera in America, North of Mexico, Ants of the Genus, 420.
Poppea delicata, 684.
Proceedings of the Thirtieth Annual Meeting, St. Louis, Missouri, December 30–31, 1935, 180.
Prothetely in Larvae of the Confused Flour Beetle, 268.
Psidopaloides minutus, 785.
Pterostichus, Studies on, 701.
Pterostichus ecarinatus, 702.
idahoensis, 706.
infernalis, 705.
tuberculo-femoratus, 701.

Rhyacionia Bouliana Schiff., in Connecticut, Winter Mortality of Larvae of the European Pine Shoot Moth, 438.
Richards, A. Glenn, Jr., article by, 431.
Ross, Herbert H., article by, 99.
Rozeboom, L. E., articles by, 266, 480.

Schwardt, H. H., article by, 589.
Shepard, H. H., (with Oothuizen), article by, 268.
Shull, W. Earl, article by, 341.
Smith, M. R., article by, 420.
Smith, C. F., (with G. W. Knowlton), article by, 776.
Southern Insect Species Moving Northward During the Drouth Years of 1930 and 1934, Records of, 578.
Sphaerionini, Preliminary Studies in the North American Phoracanthini and, 461.
Spiders of the Genus Wubana, Nearctic, 85.
Spinning Mites Attacking the Incense Cedar in California, Two, 770.
Spread of an European Staphylinid in North America, The Rapid, 78.
Stenelaphus, 477.
Stoneflies from Oregon, Some New Species of, 256.
Stoneflies, New Names for, 622.
Stratiomyidae, Some Evolutionary Trends in the, 624.
Sumner, Ruth, article by, 645.

Tabanus, Variations of Seasonal Cycle in the Genus, 589.
Tauber, Oscar E., and Yeager, article by, 112.
Telamona balli, 687.
Telebasis flammeola, T. carota and T. livida, New Dragonflies from Ecuador, 804.
Telebasis carota, 807.
flammeola, 804.
livida, 811.
Tenebrio Molitor L., Relation of Gregarines to Growth and Longevity in the Mealworm, 645.
Tetranychus libocedri, 771.
Thyatiridae, The Classification of the, 779.
Tian-Shansky, A. Semenov, In Honor of, 557.
Trichogramma, A Biometrical Study of Two Morphologically Similar Species of, 119.
Trichoptera, The Immature Stages of Some Minnesota, 656.
Tulloch, George Sherlock, article by, 81.
Two New Genera and Five New Species of Mutillidae, 289.
Typhlocybine Leafhoppers Closely Allied to Dikraneura, A New Genus—Forcipata—and Nine New Species of, 70.

Usinger, R. L., article by, 490.

Voris, Ralph, article by, 78.

Wax a Necessary Constituent of the Diet of Wax Moth Larvae, Is? 581.
West, A. S., Jr., article by, 438.
Wilcox, J., and Martin, C. H., article by, 449.
Wubana, Nearctic Spiders of the Genus, 85.
Wubana atypica, 91.
ornata, 89.
suprema, 90.
utahana, 89.

Yeager, J. Franklin (with Tauber), article by, 112.
